

Esogetic Holistic Medicine

Workshop EEA Energy Emission Analysis

Sunday, November 20th 2011
with Markus Wunderlich, in Lucerne
CHF 105.-- / S-11 EEA / 3 hrs

Important new connections and topographies in the EEA were described by Peter Mandel in previous years. In particular we will pay attention to new conflict signs, connections to Amygdala, Hippocampus, Karmic signs and burdens of the Immune System etc.

The new discoveries made it necessary to update the connections and topography in the EEA.

This workshop covers new discoveries of previous years and connects them to therapeutically relevant possibilities. It will be presented as in other Update Workshops.

Further we will present a complimented and revised version of the EEA topography.

The workshop will be rounded with demonstrations and case studies.
