Symbolism of polarity: overcoming duality in human life

Many teachers have addressed the issue of centering and how to create a balance in life. Regarding the law of polarity in this dimension there is always a third aspect which arises.

If we think about the hierarchy of Spirit, Soul and Body we see the Soul as the lying in the middle between the polarity of Spirit and Body. So the way in to access the information of the Spirit or the cognitive mind which allows us to understand and transform it is via the Soul.

The human being is hindered by past traumas, conditioning and genetics which is also called karma.

The triangle and the quadrature are higher symbols of the polarity. On the hologram of the skin we can find reflectors which can help the human to find their centre.

Key treatments:

- Reflectors of the Hypothalamus
- The new symbolism of the Mother and Father treatments
- The Trinity of Kether and Malcut and the Tree of Life
- Star of David on the skull with therapy for the layers of original fear
-

The workshop will be rounded with demonstrations and case studies.
